

# Rumblings

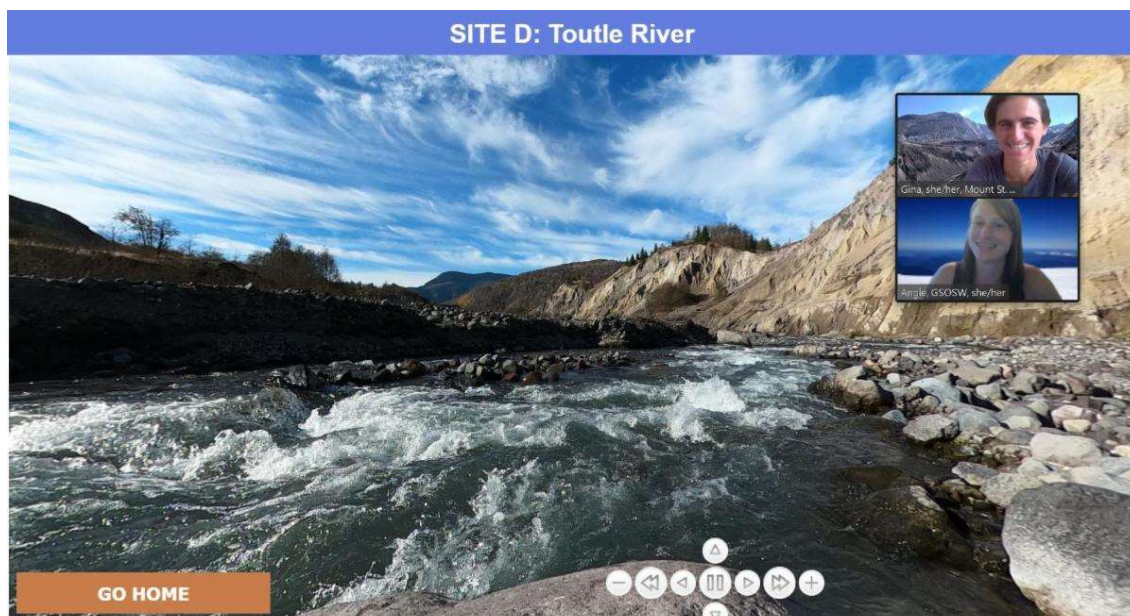

## Mount St. Helens Institute eNews

September brings fresh color to the forest, fruiting fungi, and fall showers. School is starting back up, and we're offering live virtual field trips to help teachers in the classroom.

As always, we remain steadfast in our commitment to [bring the volcano to people around the world](#) while improving equity in accessing science, the outdoors and public lands.

## School is in Session! How Would your Students Like to Attend a Live Virtual Field Trip This Year?

Investigate Mount St. Helens with us in a live, interactive, and thought-provoking virtual field trip program! While it's hard to visit the mountain in person right now, you and your students can visit in the next best way - in an interactive 360-degree virtual environment! Our virtual field trip packages are aligned to Next Generation

Science Standards, are directed by student observations, and come with ready-to-use lessons plans for before and after your field trip with us.

## Romano's Rumbings: Tumwater Mountain

Tumwater means waterfall in the Chinook jargon. The city of Tumwater just south of Olympia is home to a showy roaring tumwater along the Deschutes River. Tumwater Canyon just to the west of Leavenworth cradles a roiling, tumbling, cascading Wenatchee River. Tumwater Mountain in the far north of the Mount St Helens National Volcanic Monument is a long lonely peak shrouded in old-growth forest.
